

SITE INSPECTIONS

In this two-hour interactive online session, we will use real world scenarios and theory to help us provide our clients with high quality ways to visit and engage with our venues. In turn, helping them to understand the opportunities available to them when using our spaces.

We will take time to consider ways that we can deliver these both in the real world and virtually.

KEY TOPICS

- **VENUE VISITS** - How to prepare for and deliver physical showrounds
- **STANDING OUT FROM THE CROWD** - Top tips to make sure customers remember your event spaces
- **VIRTUAL SHOWROUNDS** - Planning and delivering a virtual showround

Following on from this session, delegates will be able to use their learning to provide improved customer service in this area, impacting enquiry conversion

15th May

2 hour online course

10.00am-12.00pm

£115

per delegate
